

THE ESTABLISHED ORDER IN FINANCIAL MARKETS

A GAME OF CHANCE ?

Why do stock prices rise or fall? Is trading a game of chance?

Can I consistently earn an income from trading the markets?

Is it gambling or is there more to it?

Some swear that the markets; all financial markets are random ,
that we close our eyes and roll the dice! No!

ran·dom: [ran-d uh m]

proceeding, made, or occurring without definite aim, reason, or pattern

at random:

without definite aim, purpose, method, or adherence to a prior arrangement;

in a haphazard way (Dictionary.com)

There is absolutely nothing random about the markets. The markets are accurate, structured and ordered. Hence, the endless potential to earn and profit!

THE GENESIS CODE

There is a powerful benevolent force at work on our planet. This power, encoded and embed with Earth in the creation account of the Book of Genesis, holds sway, and influences ‘all things’ relating to this planet.

Earth, intended by the Creator to serve man, accurately responds and conforms to the divine mandate.

If you erroneously believed that spiritual matters are best kept confined to your place of worship, repent! I want you to think again. Renew your thoughts. The great potentate changed all of that at His resurrection. The divine nature is public and available to all.

His signature persist in all creation, undeniably He is the very D.N.A of life on Earth.

Tell me, what is random about a rose in full bloom? What about the sunrise and the sunset? How about the full set of teeth in your mouth?

And then there is that newborn baby and, how about that desire to sink your teeth into a perfectly formed and succulent Golden Delicious apple?

There is nothing random about life and there is no randomness with the markets.

He is Lord over all, over all His creation visible and invisible.

DIVINE ORDER

*"To every thing there is a season,
and a time to every purpose under the heaven"*

Eccl 3:1 (KJV)

Divine Order predefines and establishes structure to markets and ‘guarantees’ continuing and repeating Price patterns, Price Formations, Market Cycles and Trends. Meditate on it!

Interpret market behavior and accurately read charts and you will profit in time.

There is an established Order (God ordinate) in the financial markets. Ignore it at your own risk!

Recognize it!

Here is my question to you: Will the sun rise tomorrow?

“a wise man's heart discerneth both time and judgment.”

Eccl 8:5
